Noise wall on Fairford Road, Bankstown

Transport for NSW | July 2020

This project is being funded under the NSW Government’s Noise Abatement Program to reduce noise for local residents.

Transport for NSW is constructing a noise wall along Fairford Road between Stacey Street and Macauley Avenue in Bankstown, with work scheduled to start in September 2020.

The wall is about 495 metres long and 4.5 metres high. Building the wall requires the removal of up to 120 trees which will be replaced as part of the urban design plan for this project. The noise wall’s finish, texture and colour will be selected to fit in with the local landscape, be low maintenance and discourage graffiti and vandalism.

We are inviting your feedback on a work schedule that would allow us to build the wall as quickly as possible to minimise the disruption to residents, businesses and road users.

Starting from September 2020, we are proposing to work up to five nights a week for 26 weeks, for a total of 130 shifts. Our night shift hours will be between 8pm and 5am from Sunday to Thursday. We will complete the noisier activities such as saw-cutting, jack-hammering and chain sawing by midnight. If you have any concerns or questions about the night work schedule, please send your comments to our delivery partner Ventia Boral Amey Joint Venture by 28 July 2020. Contact information is overleaf.
Contact us
If you have any questions or would like more information on the project, please contact Ventia Boral Amey Joint Venture:

Phone: 1800 677 700
Email: nswenquiries@vbajv.com.au
Postal Address: PO BOX 838 Rockdale NSW 2216

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 1800 677 700.

Site compound
To support construction, we are setting up a temporary site compound in the vacant land on Milton Street in Bankstown.

The compound will be used for site offices and to store materials and machinery.

These temporary site compounds may be in use any time work is taking place to construct the noise wall on Fairford Road.

Engaging with the community?
To ensure we protect public health and safety during the Coronavirus outbreak, we need to change the way we consult with the community.

Please be assured we will continue to respond to any questions or concerns you may have about our work.

How will the work affect you?
Our work may be noisy at times, but we will do everything we can to minimise its impact. We will complete the noisier activities, such as concrete cutting, chain sawing and jack hammering, by midnight.

Questions and feedback?
We invite your feedback or questions on the work schedule or other aspects of the project. Please send your comments to our delivery partner, Ventia Boral Amey Joint Venture by 5pm, Tuesday 28 July 2020 using the contact details below.

Traffic changes
There will be temporary traffic changes during our work hours to ensure the work zone is safe. Please keep to speed limits and follow signs and traffic controllers’ directions.
